Experience

Military Service

October 2020 – June 2021

Assistant Manager

June 2021 – February 2025

Terrassencafé im Hundertwasserhaus, Vienna

Full-time

Full-Stack Software Developer

February 2025 – Present

Adana GmbH, Vienna

Full-time

- Developed an SEO analysis plugin for WordPress using React.js and Node.js to manage internal/external linking and content cluster structures
- Experience with automation and AI integration in CRM/ERP systems (e.g., Odoo); developed AI-powered WhatsApp dialogue systems using OpenAI; in-depth knowledge of Node.js, TypeScript, webhooks, REST APIs, and scalable backend architecture
- Built an object-oriented TypeScript library to optimize token usage more efficiently than OpenAI's native threading system
- Worked directly with clients to gather requirements, present solutions, and ensure successful implementation
- Gained hands-on experience in deploying scalable applications and cloud servers
